

NACR Reports Double-Digit Growth for Q2

Consecutive Growth for NACR Signals Optimism for FY 2010 and Economy

EAGAN, Minn., Sept. 28 /[PRNewswire](#)/ -- Continuing its double-digit growth of the first quarter, communications expert NACR (North American Communications Resource, Inc.) announced that it achieved 13.7% growth in core business for the second quarter of 2010 compared with the same period in 2009.

"With two consecutive quarters of double-digit growth, NACR continues to demonstrate the strength of both its solutions and its customer relationships," said John Behnken, National Vice President of NACR. "Our success in continuing to both obtain new customers and help existing customers grow their current solutions attests to the strong value we deliver."

A seven-time Avaya BusinessPartner of the Year, NACR is a leading nationwide provider of end-to-end communications solutions — delivering comprehensive sales, consultative, and technical support, as well as managed services, maintenance, and repairs. NACR also has extensive Nortel certifications and is authorized to sell Nortel Enterprise Solutions (NES) in addition to the full line of Avaya products and services.

"In the 17 years since its founding, NACR has maintained revenue growth in every quarter and all economies," according to Behnken. "I think our most recent sales figures, along with the large number of customer inquiries we are receiving, indicate not only that NACR is on target to make 2010 another stellar year, but also that a general economic upturn is finally underway."

As the largest Avaya channel partner, NACR works closely with Avaya and other strategic partners to integrate the latest hardware, software, and applications into leading-edge solutions including VoIP, convergence, mobility, collaboration, unified messaging, and contact centers. The company's consultative and technical support includes network readiness, design, implementation, and testing services, as well as remote diagnostics and resolution, maintenance, refurbishment, and repairs. The NACR services portfolio is supported by a team of certified engineers and technicians, as well as two state-of-the-art Service and Support Centers (SSCs) featuring high-tech network monitoring capabilities.

For more information about NACR communications solutions and services, interested businesses can call their NACR representatives or contact the company at **1-888-321-NACR** (6227) or www.nacr.com.

About NACR
