

NACR and Avaya to Exhibit at the New Jersey State League of Municipalities 95th Annual Conference

EAGAN, Minn., Nov. 4, 2010 /[PRNewswire](#)/ -- Communications expert NACR (North American Communications Resource, Inc.) will be a featured vendor along with Avaya at the New Jersey State League of Municipalities 95th Annual Conference, November 16-19, 2010 held in Atlantic City, NJ.

A seven-time Avaya BusinessPartner of the Year, NACR is the largest Avaya channel partner worldwide and a leading provider of value-added communications solutions — delivering comprehensive sales, consultative, training, and technical support, as well as multivendor managed services, maintenance, and repairs. NACR is one of only a few communications vendors on the New Jersey State Contract and is a key technology partner to many state agencies and local governments throughout the state.

The upcoming Conference is an educational opportunity to NJ Municipalities. Delegates have the opportunity to learn and ask questions at more than 100 panels, clinics, workshops, and other sessions. They also spend time in the Exhibit Hall where commercial, government and associations exhibit and display the latest products and services for municipal government. NACR will showcase its solutions benefiting governments such as: collaboration tools, the newest maintenance and monitoring solutions, emergency management applications for 911 enablement and solutions to apply during disaster recovery situations. "This is our time to support Association and NJ local governments and help them understand not only the newer technologies that can benefit towns and citizens, but also to discuss town officials some of the mandated technical requirements their towns must meet within certain deadlines," says Debra Mullen, the Northeast Regional Manager for the State, Local Government and Education (SLE) markets. Mullen adds, "We look forward to see old friends and meeting new delegates and sharing our success stories with organizations such as Hamilton Township, NJ."
